Orthopaedic
Trauma
Surgeons

in partnership with

ARTOF

Association for the Rationale Treatment
of Fractures, Munich

Restoring
bones
estoring
lives

Welcome Friends

It is with immense honor and pleasure that we invite you all to the 4th Trauma Update, on behalf of the Association of Orthopaedic Trauma Surgeons, to be held from September 7 - 9, 2018 at Hyatt Regency, Kolkata. This year, we envision an academic event rich in brilliant course content and interactive workshop sessions to learn. We will be inspired by International and National Faculty. The theme of this conference is "Rational Treatment of Lower Limb Injuries."

The aim of our conference is to impart knowledge in such a way that each delegate can effectively put it into their practice from the very next day.

The ARTOF-Munich Trauma Course, the first stand-alone ARTOF programme in Asia, on the final day, is the showstopper of the conference. We assure you that AOTS Trauma Update 2018, in partnership with Association for the Rationale Treatment of Fractures (ARTOF), Munich will be a complete package combined with academics, socializing and flavors of Kolkata - the City of Joy.

Apart from attending a thoroughly engaging conference, delegates will have a unique environment to meet colleagues from around the world, to exchange experiences and most importantly, to create memories that they will cherish forever.

See you all in Kolkata.

Warm Regards

Team AOTS Trauma Update 2018

Dr. Arindam Banerjee
President

Dr. Gaur Gautam Kar
Org. Secretary

Dr. Rajesh More
Jt. Secretary

Dr. Sudipto
Bandopadhyay

Programme

NECK OF FEMUR

- Closed reduction
- Open reduction
- Perfect screw placement
- Valgus osteotomy

TROCHANTER

- Reduction (min. invasive)
- Lateral buttress – when (case series)
- Replace – when and how (case series)

FEMUR SHAFT

- Antegrade nail in lower 1/3 fractures – tricks
- Combined – Neck / shaft fractures – options
- When to open a shaft fracture
- Plate – when
- Revise – when

DISTAL FEMUR

- Approaches
- Coronal plane fractures
- Ideal plating
- Medial plate when and how

PROXIMAL TIBIA

- Soft tissue – what not to miss
- Column concept and analysis of bone failure mode – newer approaches
- Posterior column – what not to miss-fix
- Articular with long comminuted metaphyseal segment
- Global management of proximal tibia injuries – new concept
- Neglected proximal tibia fractures

TIBIA SHAFT

- Management of open fractures – priorities
- Extended indications to nailing
- Open infected fractures
- Segmental loss – management options
- Aseptic non unions – management plan

DISTAL TIBIA

- Extraarticular – nail or plate
- Approaches to pilon fractures
- Work flow pattern in ORIF pilon
- Ex-fix pilon – when and how

ANKLE

- Investigations in ankle fracture – when is a routine AP and LATERAL radiograph not enough
- Post malleolus – management plan
- Syndesmosis – when to fix and the best modality
- Malunited ankle fracture – correct them

CALCANEUM

- Which to fix
- Min. invasive method to fix calcaneum
- Flow chart of a ORIF calcaneum
- Post traumatic malunited fractures calcaneum – Osteotomies / fusion

TALUS AND FOOT

- Flow chart for fixation
- Offbeat fractures
- Lisfranc – a nightmare to sort out
- Navicular – dislocation / fracture
- When to fix a 5 metatarsal base fracture
- Foot compartment – how not to miss – management
- Metatarsal Fracture – do they ever need fixation
- Management of toe injuries

Industry Sponsored Lunch Symposia

September 7

- Lunch Symposium - I
- Lunch Symposium - II
- Lunch Symposium - III

September 8

- Lunch Symposium - IV
- Lunch Symposium - V
- Lunch Symposium - VI

Breakfast Workshops

BW 1

Osteotomies in Femur
September 7 | Friday

BW 2

Osteotomies in Tibia
September 8 | Saturday

BW 3

Railed Adjustable External Fixation
September 9 | Sunday

Registration
