10-13 OCTOBER - Montreal, Canada

MONTRÉAL
Orthopaedic World Congress

Welcome

Warm greetings from SICOT!

It is my great pleasure to welcome you to the 39th Annual SICOT Orthopaedic World Congress in Montreal, Canada. SICOT has now evolved into the largest orthopaedic society in the world with more than 25, 000 corresponding members from 119 countries. The annual meeting offers a wonderful opportunity to showcase expertise and work to a worldwide audience and promote cross fertilisation of ideas. The meeting is designed to be rich in academic content and the programmes should capture the interest of surgeons at all stages of their careers. There are three plenary lectures from famous surgeons of diverse fields in addition to seminars, symposia, video sessions and workshops. The prestigious SICOT Research Award papers will also be presented.

The venue city, Montreal, is a vibrant and popular destination for both conferences and tourists. The conference venue is state of the art and will allow academics to exchange ideas in comfort. Montreal also has many things to offer accompanying family members, with good options for pre- and post-conference tours.

Please do not miss this opportunity for a great academic and social event.

I look forward to welcoming you to Montreal.

Yours in SICOT,
Prof S. Rajasekaran
President, SICOT

Dear Friends and Fellow Orthopedic Surgeons from around the World,

We welcome you all to Montreal! Soyez les bienvenus à Montréal!

SICOT has seen remarkable development since its foundation on 10 October 1929 to become the global International Society for Orthopaedic Surgery and Traumatology it is in the world of today. From our original 12 member nations and five spoken languages, we have expanded to more than 110 member nations speaking well over 100 languages. SICOT presents orthopaedic surgeons from all around the world the best opportunity to exchange knowledge and information and learn from each other's experience.

Montreal is a multicultural city where East meets West and North meets South in an open and respectful society. Montreal is the most European of all North American cities, with its French language, culture and cuisine intermingling with more than 132 nationalities and well over 110 languages. As you can see, a little bit of you can be found in Montreal.

Your spouse and family will all enjoy our safe and lively city and our modern public transportation. Go discover the underground city, the Old Port and Old Montreal, the Olympic Stadium, the Mont Royal, the Casino and the Formula 1 racing track, all at a walking distance from the Palais de Congrès. Take some time to shop at St Catherine's street boutiques or at the underground malls. A one hour 30 minute drive will take you to Ottawa and Québec City, along with the wonderful changing colours of the landscape in October. Stretch it a little more and you will be visiting Toronto and Niagara Falls!

Montreal is a turntable of innovation, renowned for its Artificial Intelligence, Virtual Reality, Nanotechnology and Biomedical Engineering schools. We are proud of the amount of knowledge we are going to share with you. Our scientific programme has been designed by Vikas Khanduja and is comprehensive: a full Educational Day for starters, more than 120 scientific sessions and instructional course lectures, a Cadaver Lab for hands-on surgical training and a case-based fragility fracture osteoporosis symposium. It is a great opportunity for you to present your work in one of the free paper sessions and on top of that, we are putting together a cutting-edge exposition of current and future technologies from our partners in academia and industry. Get ready to ride in virtual reality, to enjoy real-time simulation and to touch and play with exciting new tools and implants that are in the pipeline for the near future in orthopaedic surgery.

So, spread the word: "all aboard this most exciting gathering of innovation and technology in orthopaedic surgery at the 39th SICOT meeting in Montreal!" We are waiting for you with open arms and a warm welcome, in the best Canadian way.

Julio C. Fernandes
Congress President, SICOT

39th SICOT Orthopaedic World Congress

2018

Dear Friends,

On behalf of the SICOT Board of Directors and the Congress President, Dr Julio C Fernandes, it gives me great pleasure to welcome every single one of you to the 39th SICOT Orthopaedic World Congress to be held from the 10-13 October 2018. This is the second time the Congress has been held in Canada, and we are thrilled to be going back to the beautiful city of Montreal.

We are expecting upwards of 4000 participants to share in the exchange of expertise from both high- and low-tech orthopaedic surgery environments, and hope to engender an ethos of openness to learning from one another, no matter how different our backgrounds.

We have been busy planning a diverse and thought-provoking programme. Over the two and a half days there will be over 50 instructional symposia from practice and research leaders as well as sessions from our partner societies. There will be space and time for discussion and participation, and we hope you will enjoy engaging in the topics. In addition, there will be around 40 free paper sessions, ten short free paper sessions and three plenary lectures from fantastic speakers: Dr Mohit Bhandari (Canada), Dr Alex Vaccaro (USA), and Professor Timothy Briggs (UK). Finally, we have planned an Educational Day for trainees, taking place the day before the conference begins on 9 October. This year the theme for the day will be 'The Knee' and the SICOT Diploma Exam will be available to take on the same day. We have also introduced a Knee Cadaveric course for the first time which will run everyday. We are confident that over the course of the three and a half days there will be something to whet everyone's appetite!

Personally, I am looking forward to welcoming you all to what I believe will be our most enriching and stimulating Congress yet. It has been a joy to bring this programme together and the vibrant and multicultural city of Montreal feels like the perfect place to hold this participatory event.

Very Best Wishes
Vikas Khanduja
Scientific Programme Chairman, SICOT

Plenary Speakers

Dr Mohit Bhandari, MD, PhD, FRCSC

Dr Mohit Bhandari currently serves as Professor and Academic Head of the Division of Orthopaedic Surgery at McMaster University. He also holds a Canada Research Chair in Evidence-Based Orthopaedic Surgery. He serves as Associate Chair, Research for the Department of Surgery and holds a unique distinction of 'University Scholar' at McMaster University. His research focuses upon improving the lives of individuals experiencing trauma. Dr Bhandari has received over $50 million in research funding, published benchmark textbooks in evidence-based surgery, conducted the field's largest surgical trials and published in the top cited journals including the New England Journal of Medicine, the Lancet, BMJ and Nature Reviews.

Dr Alexander R. Vaccaro, MD, PhD, MBA

Dr. Vaccaro is the Richard H. Rothman Professor and Chairman, Department of Orthopaedic Surgery and Professor of Neurosurgery at Thomas Jefferson University in Philadelphia, Pennsylvania. He was the recipient of the Leon Wiltse award given for excellence in leadership and clinical research for spine care by the North American Spine Society and is the past President of the American Spinal Injury Association and current President of the Association for Collaborative Spine Research. He has over 700 peer reviewed and 195 non-peer reviewed publications. He has published over 340 book chapters and is the editor of over 58 textbooks and co-editor of OKU-Spine I and editor of OKU-8. Dr Vaccaro is the President of Rothman Institute, Chairman of the department of Orthopaedic Surgery, Co-Director of the Regional Spinal Cord Injury Center of the Delaware Valley and Co-Director of Spine Surgery at Thomas Jefferson University Hospital where he instructs current fellows and residents in the diagnosis and treatment of various spinal problems and disorders.

Professor Timothy Briggs CBE, MBBS (Hons), MD(Res), MCh(Orth), FRCS(Ed), FRCS(Eng)

Professor Briggs qualified from The Royal London Hospital in 1982 with honours in surgery and a number of prizes. After his senior registrar training he was appointed to the Royal National Orthopaedic Hospital as Consultant in 1992. His specialist interests are in orthopaedic oncology as well as surgery to the hip and knee. He was Medical Director at the RNOH for 15 years, ensuring a re-build and was President of the British Orthopaedic Association in 2014.

He was appointed as National Director for Clinical Quality and Efficiency for the NHS in September 2015 and has been asked to lead and roll out his GIRFT methodology, developed in orthopaedics, across all surgical and medical specialties within the provider network.

Professor Briggs was made a Commander of the Most Excellent Order of the British Empire (CBE) in the 2018 New Year's Honours List for services to the surgical profession.

WELCOME TO MONTREAL

The Palais des congrès de Montréal is located in the Quartier international de Montréal at the north end of Old Montréal in Montréal's borough of Ville - Marie. The Palais was constructed above the Ville-Marie Expressway, the main underground highway of downtown Montréal.

SICOT Research Awards

The SICOT Research Award Programme comprises three awards of 2,000 US dollars each. The winners will be chosen based on scientific merit by the newly formed Research Academy with one winner in each of the following areas:

1) Clinical Science.
2) Basic Science.
3) Young Investigator (main author must be less than 40 years old).

Papers submitted for the contest must be complete papers on original work, not previously published or submitted for publication. The SICOT award winning manuscripts will be published in International Orthopaedics. All other submitted manuscripts will be considered for publication in International Orthopaedics following the regular peer-review process.

The awards are open to both SICOT and non-SICOT members. We are asking interested applicants to submit full manuscripts in the format suitable for publication in International Orthopaedics electronically to awards@sicot.org. The last date for submission is 15 July 2018.

This format requires the submitted manuscript to be no more than 2,500 words, abstract of 150 words, no more than five figures and three tables and a maximum of 25 references.

Winners will be notified by early August 2018. One of the authors of each winning manuscript must be prepared, at her/his own expense, to come and present the paper at the SICOT Orthopaedic World Congress in Montreal, 10-13 October 2018.
